Good News from Oceana

<https://oceana.org/>

Canada is now one of the only countries in the world to ban a list of single-use plastics, including plastic bags, cutlery, stir sticks, six-pack rings, straws, and takeout containers made from problematic plastics, and is the second country *ever* to ban exporting these items.

This announcement marks a victory for our oceans and the marine life that call them home, and positions Canada as a global leader in efforts to reduce single-use plastics. Hurray for Canada!!
